RESIST = improved shock resistance
AAA = with anti-algae treatment
(1) NO DROP = coating on one side against condensation
(2) NO DROP = coating on two sides against condensation
(3) HEATSTOP = infrared reflective
COOLBLUE on request

The sheets are produced on the basis of ISO 9002 according to the ISO 12017 norm with raw materials according to DIN 8745.
Tolerance in sizes: see technical file

o = until stock lasts
* = certificate of guarantee on request

SPECIAL SIZES :
Special sizes (to max 7500 mm) can be obtained per pallet order at the price of standard lengths (delivery time will be confirmed).
For lengths of more than 7500 mm, pallet costs will be charged + additional costs for overlength
If less than 10 pieces: quantity charge

CUTTING TO SIZE : standard sheet + sawing costs in working hours.
(we deliver the rest pieces if needed).

Overview characteristics multi-walled acrylic at the backside

- We refer explicitly to our general sales conditions, technical file and installation instructions.
- All prices are gross prices - V.A.T. not included, in euro.
- Prices are mentioned ex-works.
- This price list deletes and replaces all previous price lists.
